List 5 Key Take-Aways from the Seminar (write in full sentences)

Some of the takeaways for me from this seminar were. (1) Pixar is a very collaborative environment environment that brings people together and it shows in their quality of work. (2) I also noticed that Pixar cares about story telling as well as animation. Since having one or the other wont work when trying to tell a compelling story. (3) I learned how extensive Pixar's technology is to make the stories that we sometimes for granted. So seeing all the work that goes into these works of art is really eye opening. (4) I noticed how committed Pixar is to develop their technologies to keep telling great stories. I think they showed some some computer graphic technology used for animation and that was really interesting to see. (5) Lastly it was great to hear the advice given to aspiring animators. I have no interest in animation since I am not very artsy, but I really respect what they do. Overall this seminar was really informative and I feel I learned alot.
